### **EPD Settles into New Location**

After more than two years of planning, design and construction the Eugene Police Department officially moved into the newly remodeled 300 Country Club Police Headquarters. When the project began, there were two primary objectives, which have been met and exceeded throughout the facility.

- Improving the safety and efficiency of the Eugene Police Department Operations; and
- Minimizing the operating and maintenance costs of the facility.

The new headquarters creates a more welcoming and identifiable presence for the public to interact with EPD. There is improved safety from a complete seismic retrofit of the building; more spacious and efficient layout of functions that allow EPD to consolidate most of its functions into one building; and improved efficiency and lower operating and maintenance costs from the new HVAC system, decreased water usage from the installation of low-flow plumbing fixtures and native plants outside.

Ultimately the biggest accomplishment has been providing the community with a safe, efficient police headquarters facility that will serve EPD's needs for many years to come at less than half of the cost of constructing a new facility.###
